# 89th ANNUAL MEETING

Held at Weymouth 26th July, 1926.

**Rev. H. HAWKINS in the Chair.**

## **REPORT OF THE COMMITTEE OF MANAGEMENT TO THE SUBSCRIBERS.**

OUR Committee have much pleasure in presenting this, their 89th Annual Report, to the Subscribers, Benefactors, and Friends of this Infirmary. They regret to report a slight falling off in the amounts of Annual Subscriptions and Donations, but are very glad to be able to announce an increase from collections in Churches and Chapels and a very substantial increase from Friendly Societies and Hospital Collecting Committees. Your Committee desire to thank very heartily those Clergy, Ministers, and others for the great interest shown and kindly efforts made to produce such a highly satisfactory result. Although the receipts from Employees have shown a marked falling off during recent years it is gratifying to find that these same contributors are supporting the Infirmary funds through the Friendly Societies and Hospital Parade Collections, thus shewing their appreciation of the good work done for them and their friends.

The cubicle provided a few years ago for private patients willing to pay a fee has been found to be of great benefit to patients, and is also a welcome source of revenue for the Infirmary.

School children requiring glasses are now treated at the Infirmary by arrangement with the Weymouth Education Committee upon payment by that Committee of a small fee for each child attending. The major portion of such fee goes to the Surgeon, but a small portion is retained to help our funds.

During the year a legacy of £5 from the Estate of the late Mr. Lot Bealing, of Huntingford, Wilts, has been received, for which your Committee are very grateful.

During the winter months a wireless installation complete with three loud speakers in the Women's Ward, the Men's Ward, and the Matron's Sitting Room, was provided free of all charge to the Infirmary, the whole cost being defrayed by the Mayor's Hospital Wireless Fund. This has proved a boon to many of the In-patients, and in particular to those whose sight does not permit of their reading, and who consequently find their enforced idleness somewhat monotonous. Your Committee accord their heartiest thanks to the Wireless Committee for their very acceptable gift.

The alterations and additions to the building with the object of providing better sleeping accommodation for the staff are now practically completed, and will prove to be a much needed improvement in keeping up the high state of efficiency which it has always been the aim of your Committee to maintain. The Contractors' price is £573 19s. 0d., and, as will be seen from a perusal of the financial statement, a first instalment of £200 has already been paid out of income. It is perhaps too much to hope that our revenue will show such an increase as to enable the whole of the cost to be defrayed out of income, but your Committee do not anticipate having to draw on Capital to any very serious extent.

Doctor Colley has proved a worthy successor to Mr. Du Boulay, and your Committee desire to express to him and to Doctor Morrice their best thanks for their kind services so willingly and gratuitously rendered to the patients at all times. The Committee also desire to place on record their high appreciation of the work done by the Honorary Surgeon Dentist, Dr. H. H. Stones, who has resigned on leaving the town. Your Committee accept his resignation with very great regret, and ask you to-day to appoint a successor.

The ministrations of the Chaplain and his assistants during the year are much appreciated, and your Committee tender their best thanks to them and to those kind friends who have shown their practical sympathy by visiting the patients and by sending gifts of Flowers, Fruit, Vegetables, Books, &c., &c., for the benefit of the inmates.

In conclusion your Committee would like to record their appreciation of the work done by the Matron and Staff.

This comparison of the number of patients treated during the last two years shews a marked increase for the past year. This increase is partially due to more new patients and to more treatment attendances. The number of minor accidents and casualties is about the same.

In the classification of diseases treated there is a large increase in refraction cases while those in other groups remains fairly constant.

The increase in the number of operations is gratifying considering the extent to which the building alterations have interfered with this work. This is most marked in the case of cataract extractions, only five of which have been performed as against eighteen in the previous year.

For the last two months in the past year the coal strike and the consequent difficulty in travelling has interfered with some of county patients' visits, but this difficulty is now over, and they are coming again in their usual numbers.

Under the new agreement with the Local Education Committee seventy-five school children have attended for refraction. So far this new system seems to be working fairly well.

A general survey of the whole year is very satisfactory, and it shews a gradual increase in the work done, thus further proving the value of an institution of this kind to the county.

There seems to be a slight increase in the number of new patients attending without Subscribers' Tickets. This tendency is being checked as far as possible as the subscriptions are a valuable source of our income.

I should like to express my thanks to the Committee of Management for their support, and to Dr. Morrice for his help with anæsthetics and his relief when I am away.

In conclusion, I must express my appreciation of the Matron and her Staff for their loyal help and co-operation.

**The following Resolutions were unanimously adopted :—**

- “ That the Report of the Committee of Governors, the Medical Report, and the General Statement of Accounts now read, be received and adopted and a copy forwarded to each Subscriber.”
- “ That the cordial thanks of this meeting be given to H. H. DU BOULAY, Esq., Dr. G. G. MORRICE, Dr. T. COLLEY, and H. H. STONES, Esq., for their most efficient and gratuitous services as Surgeons to the Institution.”
- “ That the thanks of this meeting are due and are heartily tendered to J. E. GUY, Esq., the Treasurer of the Institution, and to T. C. MORRIS, Esq., the Auditor.”
- “ That the thanks of this meeting be given to the Committee of Governors and to the House Committee for their untiring services during the past year.”

## **RULES AND REGULATIONS.**

1.—The Infirmary is supported by Benefactions, Legacies, and Annual Subscriptions.

2.—The Governors of the Institution are Benefactors of Ten Pounds, Annual Subscribers of One Guinea, Clergymen, Ministers, and others who shall collect a sum not being less than £2 2s., and the Representative of the members of any Recognised Society, Club, or Body of Employees, who shall collect amongst themselves a sum of not less than £2 2s., and the Medical Officers. The qualifying Subscription to the Funds of the Institution is payable in advance in the first week in July, and no-one shall be entitled to vote at any Meeting who has not been Six Months a Governor.

3.—A General Meeting of Governors is held on the last Monday in July in each year, at Three o'clock, to receive the Annual Medical Report and the Treasurer's Statement of Accounts to the previous 30th June; to elect a Committee of Management for the ensuing year from among the Governors, also a Treasurer and Auditor; and to transact such other business as may be necessary. The Secretary shall, at any time, on giving ten days' notice, convene a General Meeting by direction of the Committee or any Ten Governors. Seven Governors to form a quorum.

4.—The Committee of Management meet Quarterly, on the third Thursday in January, April, and October, and on the last Monday in July in every year, to regulate the affairs of the Infirmary, and to receive the Treasurer's Statement of Accounts. Five Members to form a quorum. The intermediate business is conducted by a House Committee, consisting of Three Members of the Committee of Management, and appointed by that Committee. The House Committee meet monthly for examination of accounts and for necessary business, and report to the Committee of Management at the Quarterly Meetings. The Secretary shall, at any time, convene the Committee of Management by direction of the President, the House Committee, Treasurer, Surgeons, or any Five of its Members.

5.—The Medical Officers are elected by a majority of a General Meeting of Governors called for that purpose.

6.—Previous to the election of any Medical Officer, or of the Secretary, at least Ten Days' Notice shall be given in two or more County Newspapers.

7.—The Patients are divided into two classes—Out-Patients, who are entitled to the advice and assistance of the Surgeons, and are provided with medicine gratuitously; In-Patients, who are received into the Infirmary and maintained free of expense.

8.—Patients are admitted on Tuesdays and Fridays at Ten a.m., producing an official recommendation from a Subscriber, or from the Minister of the Subscribing Parish in which they reside, of their being proper objects of the Charity. Emergencies are seen at any time.

9.—Persons whose cases require particular care, or operations for their cure, are received as In-Patients, according to the judgment of the Surgeons and the priority of application. No In-Patients can be admitted who are not provided with the necessary clothes, or who, in the opinion of the Committee, are able to pay for their support during the time necessary for their treatment.

10.—The Surgeons attend the Out-Patients at the Infirmary on Tuesdays and Fridays; and visit the In-Patients daily, or as often as appears to them necessary. They submit to the Annual Meeting a Report stating the number of Patients admitted during the year, the number discharged with results, the number remaining on the books.

11.—The Secretary (who is appointed at a General Meeting, with a Salary), collects subscriptions; examines the House Accounts monthly, and submits them to the House Committee on the first Monday in each month, or such other days as they may appoint; issues notices of all meetings; attends and keeps minutes of the proceedings; submits to the Quarterly and Annual Meetings a list of new Subscriptions, Benefactions, and Legacies, the Disbursements, and the State and Balance of the Accounts.

12.—The Matron is appointed and discharged by the Committee. Nurses are appointed and discharged by the Matron, subject to the approval of the Committee. The Nursing Staff are under the control of the Surgeons as far as regards the treatment of Patients.

13.—These Rules can only be altered by a majority of a General Meeting of Governors, at which not less than seven are present, and after due notice of ten days of such intended alteration in two County Newspapers.

Dr. COLLEY attends on Tuesdays and Fridays. All Panel Patients must get their Tickets endorsed by, or a recommendation from, their Panel Doctor.

**In-patients coming from a distance should first write and ascertain if there is a vacancy.**
